

4.24. Organisation Administrator

- Delete organisation access tokens [new]

Id	4.24.
Description	As an Organisation Administrator I need to be able to delete access tokens for users belonging to my organisation So that I can revoke access to the APIs for the different users
Priority	Medium
Actors	Application Administrator
API Calls	DELETE /admin/tokens
Linked Processes	
Status	Implemented

Preconditions

1. The User must be authenticated and have the **Organisation Administrator** role.
2. The Token that the **Organisation Administrator** wants to delete a token must exist on the platform.

Postconditions

1. The User token is deleted

Main flow

1. The **Organisation Administrator** retrieves the existing tokens.

2. The **Organisation Administrator** uses the API to delete a selected token.
3. The system confirms that the token was deleted.

Exceptions

[400 Bad Request] Invalid input:

If mandatory fields are missing or invalid, the system returns an error message.

[404 Not Found] Token not found

The token, that the **Organisation Administrator** tried to delete does not exist.

[500 Internal Server Error] System Error

If the system fails to save changes due to an internal error, it displays an appropriate message and logs the error for further investigation.
