4.29. Editor - Create an additional temporary address for an existing site [canceled]

> This call has been removed. Addresses now need to be configured on the blocks exclusively and are back populated to the sites.

Id	4.29.
Description	As an **Editor**, I want to be able to add a missing address to an existing site, So that I can find the site independently of the address used to search it.
Priority	**Medium**
Actors	Editor
API Calls	**POST** /sites/<site-id>/addresses
Linked Processes	7.3. Create missing address for existing site or block process
Status	**Implemented**

Preconditions

1. The User must be authenticated and have the **Editor** role.
2. The User has the site id to which he wants to add an address
3. The User has all the required address information

Postconditions

1. The requested address is created with a flag (validated = false) indicating that the address is not validated and is temporary.
2. The created address is linked to the given site
3. The requested address is returned to the user.
