4.9. Application Administrator - Delete access tokens [new]

Id	4.9.
Description	As an **Application Administrator** I need to be able to delete access tokens So that I can revoke access to the APIs for the different users
Priority	**High**
Actors	Application Administrator
API Calls	**DELETE** /admin/tokens
Linked Processes	
Status	**Implemented**

Preconditions

1. The User must be authenticated and have the **Application Administrator** role.
2. The Token that the **Application Administrator** wants to delete a token must exist on the platform.

Postconditions

1. The User token is deleted

Main flow

1. The **Application Administrator** retrieves the existing tokens.
2. The **Application Administrator** uses the API to delete a selected token.
3. The system confirms that the token was deleted.

Exceptions

[400 Bad Request] Invalid input:

If mandatory fields are missing or invalid, the system returns an error message.

[404 Not Found] Token not found

The token, that the **Application Administrator** tried to delete does not exist.

[500 Internal Server Error] System Error

If the system fails to save changes due to an internal error, it displays an appropriate message and logs the error for further investigation.
